

THE PORTABLE DIATHERMIC MACHINE.

This apparatus furnishes only the D'Arsonval (bipolar) high frequency current. Though designed especially for intra-vesical fulguration, it can also be used for limited diathermic treatments. It is especially advantageous in Genito-Urinary work due to the nicety of control and the limiting of the current, which naturally increases the safety factor in operating.

In comparing this instrument with the Portable Telatherm described on Page 4, it must be borne in mind that the Portable Diathermic Machine is limited to the uses described, whereas the Portable Telatherm is equipped with a hot-wire meter and has a much wider range of use.

On Page 6 herein is described the accessories essential for Bladder Fulguration with the above apparatus. The Wappler Cystoscopes, which are also used in this work, are described in Catalog Bulletin No. 200—which will be sent gladly on request.

Cat. No.	Description	Code Word	Price
C-3116	Portable Diathermic Machine—110 volts, 60 cycles AC	Athem	\$120.00
C-3117	Portable Diathermic Machine—for both 110 volts DC and 110 volts AC (universal)	Dithem	190.00

For additional accessories see Catalog Bulletin No. 701.

The No. 4 B HYFLEX.

This apparatus can be recommended for office or home use for vacuum electrode treatments. Its high frequency current will energize a medium size glass vacuum electrode and is well suited for surface applications. A powerful counter irritant effect lasting many hours can be produced.

Accessories included in the outfit are; 1—No. D-4403 Vacuum Electrode Handle; 1—No. D-4411 High Frequency Cord; 1—No. D-4409 Sleeve Cap for No. D-4403; 1—No. D-4332 Surface Vacuum Electrode.

The No. 4 C HYFLEX.

The No. 4C Hyflex is similar to the above instrument, but is slightly more powerful, and is equipped with a special winding from which current for heating cautery blades is obtained. The same accessories that are included with the No. 4B Hyflex are supplied.

Cat. No.	Description	Code Word	Price
C-3118	The No. 4 B Hyflex, 110 volts, either AC or DC	Heddle	\$35.00
C-3119	The No. 4 C Hyflex, 110 volts, either AC or DC	Heckle	40.00

For other voltages and cycles an extra charge is made.

For accessories see Catalog Bulletin No. 701.
